Tertiary Estates	8.25%	8.25%	8.25%	8.25%	Stable

\*Market rent; City core location; lease sub 7 years; building over 10 years old.

Note: The capitalisation rate/yield is only part of the make up when assessing the value of secondary property. Fundamental considerations include the level of over-rent, potential capital expenditure, non-recoverable outgoings and future void/rent free periods.

## Definitions

Asset Type	Location/Pitch	Quality of building / Obsolescence	Lease length	Demand / Supply	Tenant / Covenant strength
<b>Good Secondary</b>	CBD; good location with transport links; regional centre	Good quality; well maintained; capital expenditure may be required; alternative use also considered	FRI lease; medium unexpired term (5 - 8 years)	Reasonably strong letting demand	Institutionally acceptable lease; tenant covenant considered to be "sound"
<b>Secondary</b>	Edge of CBD; fringe location	Average quality; some capital expenditure will be required; alternative use also considered	FRI lease; Short to medium unexpired term (2-5 years)	Average letting demand	Average covenant strength
<b>Tertiary</b> <i>(Yield is merely a guide, more focus on capital value per sq ft)</i>	Poor location; lacking in profile; poor transport links	Dated; nearing end of economic life - significant capital expenditure will be required; alternative use?	FRI lease; Short unexpired (2 year term or less); vacant	Short term lettings at reduced rents; vacant and unlettable	Poor; unrateable; lacking in financial detail; impossible to determine covenant strength
