Designed by Herzog & de Meuron, it will be Canary Wharf's signature residential tower, a landmark and high-rise building of exceptional architectural quality. The building contains 484 apartments arranged over 58 storeys containing studios, 1, 2 and 3 bedroom apartments.

DEVELOPMENT INCLUDES

- The first residential building by Herzog & de Meuron in the UK
- Located on Canary Wharf's 128 acre private Estate
- A full suite of residential amenities over two floors
- Outstanding location surrounded by parks and waterways
- Incredible level of specification
- Terraces to all apartments
- 24 hour security / concierge

FROM A UNIQUE DEVELOPER

No-one else in London has had such an influence on the City's skyline as Canary Wharf Group. For them, achieving one of the greatest ever feats of civil engineering, turning the original 97 acres of derelict Docklands into one of the world's most sought after locations, was just the start.

Over the last thirty years Canary Wharf Group has worked alongside many of the world's leading architects, pioneered innovative and sustainable construction methods and has gained a reputation as world leaders in creating not just buildings but thriving places, where communities as well as businesses flourish.

Being one organisation that does everything, from creating the initial vision, through construction, to the day-to-day management, gives the Group a uniquely long-term perspective.

A NEW DESTINATION FOR LONDON

For the last three decades, Canary Wharf has been a thriving centre of business and culture that has shifted London's centre of gravity east and set new standards for urban spaces. Now the most exciting evolution in the Estate's history has begun, the creation of the new residential district.

It will be a neighbourhood of green spaces and waterside boardwalks. It will be both an oasis of calm and one of the most well-connected neighbourhoods in Europe. It will be just as easy to grab the essentials of daily life as it will be to take in live music or theatre. It will be a local neighbourhood with all the benefits of being part of a private Estate.

One Park Drive is the signature building of the new district. Positioned at the head of the dock, it proudly represents everything that makes the new neighbourhood so special, a unique architectural achievement thoughtfully designed to be the very best in city and waterside living.

The 128 acre Canary Wharf private Estate is one of the world's great city spaces; internationally renowned as one of London's most vibrant districts with a unique waterside location. The Group's careful stewardship over the last 30 years also means it's recognised for being both beautifully maintained and reassuringly safe. The creation of the residential district represents a unique opportunity to live on the private Estate.

THE ARCHITECTURE

One Park Drive is a single harmonious building; however its 58 storeys are made up of three typologies, each with its own distinct characteristics.

The lower floors contain the Loft apartments, some of One Park Drive's largest apartments. With high ceilings and wrap-around terraces, they are designed to make the most of the connection to both the green spaces and the waterfront. The Cluster forms the heart of the building. It is the typology that contains the greatest variety of apartments. The lower levels are connected with the parks and the water, the higher floors with the sky. The upper floors contain the Bay apartments. They have double-height terraces which are set back into the building. Their design is focused on maximising light and the views across London.

THE APARTMENTS

The apartment interiors deliver a complexity and surprise that complements One Park Drive's powerful exterior form, as well as creating a sense of calm and a luxurious intimacy. The interiors focus on natural materials and finishes throughout with special attention being paid to the tactile surfaces. The three typologies so powerfully expressed in the exterior architecture have their own distinct yet harmonious personalities.
