WORKING ON THE GOLD COAST

*Where are the key employment
hubs on the Gold Coast?*

KEY EMPLOYMENT HUBS

Commercial

The distribution of employment opportunities are wide across the Gold Coast, although there are pockets of concentrated areas for office workers. **Southport** is the largest office market on the Gold Coast, followed by **Robina-Varsity Lakes, Bundall, Surfers Paradise and Broadbeach**. Most accessible by: train, light rail, bus and car.

Industrial

Industrial areas are more spread across the local government area varying from warehouses and industrial unit estates.

Suburbs along the Pacific Motorway include: **Yatala, Stapylton, Ormeau, Pimpama, Coomera** and **Nerang**. Suburbs on the Gold Coast Highway include: **Arundel, Molendinar, Ashmore, Southport, Burleigh Heads** and **Currumbin**. Most accessible by: bus, car and/or train.

STUDYING IN AUSTRALIA

What is the school and university platform for International students in Australia?

Australia provides a world-class education system with many exceptional schools and universities.

For international students, the Simplified Student Visa Framework (SSVF) is designed to make the process of applying for a student visa in Australia simpler to navigate via two subclasses:

Student Visa—Subclass 500 where international students can apply for a single student visa regardless of their chosen course of study.

Student Guardian Visa—Subclass 590 where student guardians can apply for the new Student Guardian Visa. All students and student guardians must lodge their visa application online by creating an ImmiAccount.

STUDYING: SCHOOL

Schools in Australia generally comprise a mix of local and international students.

The education system is broadly divided into **primary** years K-6 (aged 5-12) and **secondary** years 7-12 (aged 13-18) students.

Independent schools are financially and administratively privately operated.

Religion-based schools hold faith at the core of their education—however they continue to follow the government education curriculum.

STUDYING: UNIVERSITY

Most **universities** have a main campus with several smaller campuses located across multiple states and territories, in the Central Business District (CBD) and regional areas.

This provides a wide range of options when studying in Australia with many Australian universities also setting up campuses in major international hubs.

Many universities also offer distance and online education where students can have flexible study load (full-time or part-time) with professional recognition and graduate with the same qualification.

Defintions

World Ranking, Australia Ranking and Overall Score is the QS World University Ranking by evaluating six metrics: Academic Reputation (40%), Employer Reputation (10%), Faculty/Student Ratio (20%), Citations per faculty (20%), International Faculty Ratio (5%) and International Student Ratio (5%).

International Student Ratio is calculated on the ability to attract faculty and students from across the world, which in turn suggests that it possesses a strong international brand.

Academic Reputation is derived from collating the expert opinions of over 130,000 individuals in the higher education space regarding teaching and research quality at the world's universities.

WHAT IS THE STANDARD PROCESS FOR BUYING A RESIDENTIAL PROPERTY?

The process to purchase a residential property can vary widely but the most common steps are outlined below. For further information and clarity, consult with a legal representative.

Finance Representation

Before starting the journey to purchase a residential property, carry out due diligence of the subject property and surrounding area to ensure the price expectation can be achieved with the allocated budget.

Legal Representation

Engaging a solicitor or conveyancer prior to purchasing the property is highly recommended so they can review the contract before signing, and then stay engaged throughout the process until the property settles (when the property officially changes ownership).

BUYING: AN ESTABLISHED PROPERTY

Inspect the property at an open house or by private appointment. Request a **copy of the contract** and have solicitor (or conveyancer) read it.

Gain **pre-approval** for loan from lender and confirm qualification from FIRB if required. Arrange a **pest and building** inspection to guarantee the quality of the building and be aware of

maintenance required.

Negotiate by private treaty the highest price willing to be paid for the property with the vendors (via the selling agent) or alternatively **bid at public auction**.

Holding deposit is recommended for a private treaty until cooling off ends (say, A\$1,000) until formal finance is approved; at this time the full deposit (say, 10%) is paid.

If the bid was accepted at auction, the **full deposit** is payable at this time (say, 10%) with any cooling off period now void. The deposit is generally paid by cheque or electronic transfer (private treaty only).

Contracts are signed and exchanged by both parties and it's time the solicitor (or conveyancer) finalises the formal paperwork with the lender. Loan documents are signed.

Settlement occurs when the property officially changes ownership, following one final inspection on the day and the locks are changed.

BUYING: OFF-THE-PLAN

In most cases, buying off-the-plan (OTP) is the commitment to buy a property that's not yet built. An OTP

property can sometimes be better priced than established stock.

Developers are keen to secure sales in the project so lenders will provide funding and construction can commence. There is also the potential flexibility at this time to make design changes to a house or apartment before construction begins.

In most cases a deposit, typically 10%, is paid to the developer and the remaining is paid on settlement of the property, allowing more time to save throughout the construction period.

Through this time, market forces may push market values up, at an advantage to the buyer, at the same time consideration must be made should the market slow over this time.

It's wise for this type of investment, that contracts are reviewed by legal representation and the 'sunset clause' explained, which places a deadline for the construction timeline.

Should a development not proceed, deposits will be returned, but this could be at the expense of missed interest and capital gains through other investments.

There can also be more tax depreciation available on new properties, meaning maximising benefits and improving after-tax cash flow for investment properties.

WHAT ARE THE INTERNATIONAL INVESTOR BUYING RULES?

The current rules around international buyers investing in Australian residential property aims to direct investment into new housing, increasing the housing supply and support local economic activity.

Before purchasing a residential property in Australia, all international investors must apply and be approved by the Foreign Investment Review

Board (FIRB). Different rules apply to three main investor groups:

International investor

A natural person who is not an Australian citizen and is a non-resident.

Temporary resident

A person residing in Australia and holds a temporary residency visa which

allows them to stay for continuous period of 12+ months or on a bridging visa awaiting permanent residency.

Offshore company with an Australian business

The scope of the offshore company's operations and assets in Australia would be considered before being eligible to acquire one or more properties under this category.

WHAT ARE THE COSTS OF BUYING A PROPERTY?

STANDARD COSTS

When buying property in Australia, there are both federal and state taxes and a range of fees that are implemented.

Transfer Duty

Transfer duty (also known as Stamp Duty) is levied by the state government on the purchase of property.

Legal Fee

Legal fees will vary between legal firms and may be dependent on property value. Fees range from A\$900-\$3,000 plus Goods & Services Tax (GST).

Land Transfer Fee

When a property changes ownership, a document known as a Land Transfer is lodged and registered with the NSW Office of State Revenue, and a fee is charged. This document records the change of ownership.

The cost to register the title varies in each state of Australia. A solicitor or conveyancer will perform this task on behalf of the purchaser.

Mortgage Application Fee

A fee charged by the state government for the registration of a mortgage. A lender will perform this task on behalf of the purchaser.

ADDITIONAL INTERNATIONAL BUYING COSTS

FIRB Application Fee

Before purchasing a residential property in Australia, all international investors must apply to the FIRB before the application will be processed.

For most applications, the statutory timeframe is 30 days for making a decision and will not start until the correct fee has been paid at the time the application is made or notice is given.

The fees that are payable depend on the value and type of action being taken, and whether special fee rules apply. International persons are required to pay a fee for each application made, or notice given.

Once a foreign investment application has been lodged through the Australian Taxation Office (the ATO) Portal, applicants will receive an on-screen confirmation containing the fee details.

It's important to note that seeking approval from the FIRB is property-specific; therefore one application per property. Also the fee on application

“Before purchasing a residential property in Australia, all international investors must apply to the Foreign Investment Review Board (FIRB).”

“A fee is payable before the foreign investment application will be processed.”

“Seeking approval from the FIRB is property-specific; therefore one application per property.”

“The fee on application does not provide any assurance of securing the property.”

does not provide any assurance of securing the property.

Transfer Duty Surcharge

In Queensland, in addition to the transfer duty, a transfer duty surcharge is payable for international investors of 7% on the market property value at the time of purchase.

WHAT ARE THE COSTS WHEN OWNING A PROPERTY?

In Australia, most residential dwellings are purchased as freehold property, that is, the land and building are owned outright, in perpetuity, under the Torrens title system.

The same exists for strata title, although ownership allows individual ownership of part of a property (or 'lot'), combined with shared ownership in the remainder, or common property, through a legal entity known as the owners corporation.

STANDARD COSTS

Costs and taxes associated with the ownership of a property can vary dependent on the services the building provides.

Land Tax

Land tax is an annual state tax that is calculated based on the aggregated taxable value of all land owned (or jointly owned) by an individual. Land

Tax is not applied if the property is considered your principal residence.

Council Rates

This varies across states and local government areas. This is the tax the council charges owners for the services to the property—generally paid quarterly or annually.

Owners Corporation

If the purchased property is strata titled, an owners corporation will be established for the building.

A strata titled building has common areas and facilities for the use of all occupants of the building. A regular levy must be paid to the owners corporation to maintain and repair these common areas. This can include foyers, elevators, gardens, swimming pools, gymnasiums, visitor parking areas, security and lighting.

The owners corporation comprises an executive committee who make decisions on behalf of all owners,

generally comprising individual apartment owners within the complex.

ADDITIONAL INTERNATIONAL OWNER COSTS

Vacant Residential Property Levy for International Owners

The Australian government charges an annual levy for foreign-owned vacant residential property (ghost tax) if the owner fails to occupy or lease for at least six (6) months of the year. The levy is equivalent to the FIRB application fee imposed at the time the property was purchased.

Land Tax Surcharge for International Owners

The QLD government imposes a 2% land tax surcharge for absentee international owners. This is payable in addition to general land tax and is based on the taxable value.

WHAT ARE THE LANDLORD COSTS FOR RENTING OUT A PROPERTY?

STANDARD COSTS

Property Management Fees

Letting Fees are usually equivalent to two (2) weeks rent paid to the agent (property manager) as a fee for securing a tenant.

Management Fees cover any costs associated with managing the property and generally ranges from 7% to 8.5%, plus GST.

Utility and Service Charges

The owner generally pays for the use of utilities such as electricity, gas and water supply.

If the owner leases the property, some of these can be passed onto the tenant, but this must be stipulated in the tenancy agreement. In saying this, the owner must pay for the initial and/or replacement installation and connection costs.

Landlord Insurance

Landlord insurance is recommended and designed specifically to cover residential rental properties. Depending on the insurance provider, it protects the home from damage, theft, severe weather or rent default in some cases.

Income Tax

Income tax is payable on gross rental income, less any allowable deductions incurred in earning that income. To understand the number of potential allowable tax deductions, it is recommended an Australian Tax advisor is consulted.

The Tenancy Agreement

A tenancy agreement (lease) is a contract where the landlord (owner) allows the tenant (renter) to occupy their residential property for a specified length of time (term), in return for a regular payment (rent).

Lease application must be submitted to the property manager with proof of identity, ability to pay rent and good references.

Term of a tenancy can vary, although the standard term is six (6) months for the initial agreement. Alternate periods may be negotiable dependant on the requirements of the landlord and/or tenant.

Rent being the regular payment from the tenant, to the landlord, is normally paid via the property manager on a weekly, fortnightly or monthly basis. Any future increases will be stated within the tenancy agreement.

Bond is an upfront lump sum security of four (4) weeks rent paid by the tenant and returned if the vacated property is left in a suitable condition.

Termination occurs when the tenancy agreement is void. However, both landlord and tenant can request to end the tenancy for several reasons with conditions met such as, suitable days notice, number of notices and reason for termination.

WHAT COSTS ARE PAYABLE WHEN SELLING A PROPERTY?

STANDARD COSTS

There are costs and taxes to consider when selling residential property in Australia.

Legal Fee

Legal fees include, but are not limited to, the costs for preparing a contract for sale.

The solicitor or conveyancer fee could be dependent on value of property, and may vary between state and territory as well as the particular solicitor chosen. The cost may range between A\$2,000 - \$4,000, plus GST.

Real Estate Agent Selling Fee

An agent fee is the commission paid by the owner, to the agent, for selling the property—either tiered or at a fixed rate.

Do ensure the breakdown of the fee structure is understood as commissions will vary between states, and price point.

Fees often range between 2% and 3% of the value of the property sold.

Marketing Costs

When an agent is selected to sell the property, the fee breakdown will often stipulate the budget associated to the marketing and advertising of the property.

Budgets for marketing, media, as well as length of advertising should all be discussed with the agent to ensure maximum advertising potential for the residential property.

Capital Gains Tax

Capital gains tax (CGT) is a federal tax levied on the gain or loss upon the sale of an investment property.

The tax is implemented on the difference between the cost of acquiring the property, and the value when sold.

The difference is then added to the income tax for the individual or company for that financial year, and taxed accordingly with those rates.

ADDITIONAL INTERNATIONAL SELLING COSTS

Foreign Resident Capital Gains Withholding

Foreign resident capital gains withholding (FRCGW) applies to vendors disposing of certain taxable property under contracts entered into from 1 July 2016.

The FRCGW tax rate is 12.5%. It also now applies to real property disposals where the contract price is A\$750,000 or more.

For contracts that are entered into from 1 July 2016 and before 1 July 2017, even if they are not due to settle until after 1 July 2017, the FRCGW withholding tax rate is 10% and applies to real property disposals where the contract price is A\$2 million and above.
