

FUNDED BIOMASS & CHP.

Knight Frank are working in partnership with Woodco Energy in order to deliver funded biomass solutions to our clients. Biomass boilers and CHP can be delivered free of cost and can save our client's money on their energy costs from year one. Woodco install, operate and maintain the biomass system at no cost to you.

BENEFITS:

- Free electricity (CHP);
- Significant heating cost savings (up to 40%) compared to electric, oil and LPG;
- Reduce Co₂;
- Hedge against rising fuel costs.

Typical suitable properties include: nursing and care homes, hospitals, hotels, manufacturing facilities, temperature controlled warehousing, shopping centres.

Significant savings can be made at any sites using diesel, gas, oil or LPG.

Funded biomass CHP can provide a nil cost way to lower heating bills by up to 40%, whilst reducing CO₂ emissions and replacing aging plant with cutting edge modern low carbon technology.
