Cookies

We categorize cookies in your report based on a methodology developed by and used for Cookiepedia

Description of cookies

Strictly Necessary means the cookies are essential for the provision of the site and any requested services, but do not perform any additional or secondary function.

Performance Cookies are those that provide statistical information on site usage, i.e. web analytics.

Functionality Cookies support user interactions or enable interactive features on the site, usually restricted to the domain. Excluded from this is functionality provided by third parties that also enables profiling or cross domain tracking, especially if this is not clear to

Targeting/Advertising Cookies are used to create profiles or personalize content. Third parties often set them and these cookies present the highest privacy risks to visitors.
